

LA COMBRICCOLA DEI LILLIPUZIANI

Presents

AERIAL ACROBATIC

The aerial acrobatics performances are suitable for every type public so they can done from the most elegant locations to the clubs, squares or social events.

The tools you can choose include: aerial silks, rope, hoop and hammock. Everyone of them create different, suggestive and fascinating paintings suspended in the air.

Musics and costumes can also give the kind you prefer for the performance which will be always characterized by grace and sinuosity.

We are looking forward to create a show for you!

TECHNICAL SHEETS:

AERIAL ACROBATIC Performances

PRODUCTION: Combriccola dei Lillipuziani

PERFORMED BY: Veronica Severini

DIRECTOR: Veronica Severini

COSTUMES: Alessandra Casagrande

PERFORMER: 1

SHOW TIME: From 5 to 20 minutes

(available for short and replicable performances too)

ASSEMBLY TIME: It depends about the location. The aerial structure assemblament is 30 minutes.

DISSASSEMBLY TIME: 30 Minutes

STAGE AREA: With the aerial structure she needs a ground space of 6 x 6 meters and a minimum height of 5 meters. The show needs the certified aerial structure. So to assembly it, it is necessary a free ground space around 6x6 metres. If there is already the possibility to hang the tool on the site (after viewing the attachments) there will be no need for the structure and it is sufficient a free couple of square metres around the tool.

DISCIPLINES: Aerial acrobatics with silks, rope, hoop and hammock.

TECHNICAL REQUIREMENTS:

- Possibility to arrive at the show at least one hour before the performance with the car for loading and unloading material.
- Dressing room to able to change, make up and leave personal effects.
- Connection current (220v) near the place intended for the stage.
- The company has its own sound system.
- In the case of evening hours in the dark lighting shall be paid by the organization.
