## COMICOPS

*Ladies and gentlemen it's showtime!*

A charming and romantic street artist will bring you to a universe of acrobatics and handiness, but the unexpected is always around the corner and "the law never sleeps"

Burst onto the square, two bizarre police in order to protect public order and tranquility triggering an uproar! The trio will create a crazy and roaring show with chases, fights, and fall over, pure slapstick-style! Do not miss the dexterities of the smart artist, who, in order to resist attempts to stop our "policemen", will use all the tricks of the trade and his talent as a juggler, manipulator and fugitive.

Exciting trip to the wonderful and witty world of Silent Movie i.e. the "Comics"
