GOGO, DIDI E IL MISTERO DEL GRANDE PAPO

Who is the big Papo? Where he comes from? What are his mysterious powers? But above all, why it's so big?! These are just some of the questions that Gogo and Didi try to solve in a show that brings together the best sketches of Combriccola dei Lillipuziani . Together with exercises and juggling clown gags, our heroes Gogo and his unfailing and loyal assistant Didi, this time they can count on an exceptional character whose amazing powers will be revealed during the course of the show. Our two main characters will discover together with their public what this kind of monster is capable of; boards with nails, pain tolerance, fire-breathers, all without losing the humor and the desire to make fun that characterizes the work of this company and that makes this show a lot of fun for both adults and children.
